The provisions of any contracted arrangements between the player and the club need to be acknowledged and considered. This may extend to the provision of financial support to the player by the players club, as agreed, in relation to the cost of medical cover and/or the cost of expenses.

26. Replacements (Interchange)

- 26.1. An interchange is the replacement of one player in a team for another during the match.
- 26.2. Only 13 players from each team may be on the field of play at any one time
- 26.3. A limited interchange system is used
- 26.4. Each team must list 4 players as interchange players on the team list, and at the discretion of the club one further player as the concussion substitute, and in StatEdge,
- 26.5. Each team may use up to a maximum of 8 interchanges during the match.
- 26.6. In matches that extend to extra time, an additional 2 interchanges will be permitted, where limited interchange is used, to each team. Any unused interchanges during normal time may also be utilised during extra time.
- 26.7. A replaced player must have left the field of play prior to the interchange player taking their place on the field. If a team elects to interchange a bleeding player, who leaves the field, this interchange will be included for the purposes of calculating the number of interchanges.
- 26.8. If a player is fouled by an opponent, who is then dismissed from the field, sin-binned or placed on report and the fouled player is caused to leave the field as a direct result of an injury sustained in that incident, this interchange will not be included for the purposes of calculating the number of interchanges, provided that it is made without delay and by the time the referee has acted on the incident.
- 26.9. If the fouled player subsequently returns to the field later in the match, that interchange will not be included for the purposes of calculating the number of interchanges.
- 26.10. Interchanges may only occur during general play e.g. when the ball is in motion, after any scoring has been completed or if play has been temporarily suspended by the referee e.g. injury or caution.
- 26.11. A maximum of 2 interchanges may take place at any one time.
- 26.12. A replaced player must cross the touchline or dead ball line prior to their replacement taking the field of play.
- 26.13. The player coming on to the field must hand the interchange official the interchange card, and only when the interchange official has taken the card is the player permitted to take to the field of play. If the player throws the card on the ground, they will be asked to come back and hand it to the official.
- 26.14. Interchanges must not be made after the referee has ordered a scrum, until the scrum has been completed, unless it is to replace a bleeding player and the referee has:
 - 26.14.1. Signalled a stoppage in play.

- 26.14.2. The trainers have first advised the referee that in interchange is to take place.
- 26.14.3. The scrum is a result of a touchline stoppage.
- 26.15. The phrase “causing a player to leave the field immediately” means without having taken any further part in the game after the incident before they leave the field. If play continues while the player is still out of play being treated, this does not negate access to a free interchange.
- 26.16. The NSWRL provides interchange cards to each club.
