G	All other players including those who have competed in less than 15 Ron Massey Cup games or less than 40 Sydney Shield games.	2

2017 NSWRL Player Points Index System (PPIS)

Guidelines:

1. Players are indexed at the highest level at which they played.
2. Ron Massey is capped at 100 points and Sydney Shield at 70 points per team per match.
3. A total of 17 players must be counted per match – 13 players with the 4 nominated reserves, if a team is unable to name 17 players they must advise the NSWRL accordingly. A team cannot name fewer players to remain under the points. Where naming fewer than 17 players a club must leave the min value of the missing number of players, ie if naming 16 players the total value for a Ron Massey team can be 98 points.
4. Points are not cumulative i.e. only one level per player.
5. It is the responsibility of the club and player to ensure that the assessment sheet is properly completed and signed. Breaches shall apply for failure to comply with this requirement.
6. All points will be listed on LeagueNet on the player's profile.
7. One point per year discount (up to a maximum of 5 points) for players who have previously played with the club or with their designated junior league feeder club. A player history with the club will only be assessed over the previous 10 years. Any consideration outside of the 10-year period must be submitted in writing.
8. A player's playing history will only be assessed from under 13's and above – a player's history will only count under 13's if asking for a loyalty/ long serving player discount
9. Category A and B players will receive a discount of 1 point per year (up to a maximum of 10 points) for each year they have been out of the NRL or British Super League.
10. A player that has stayed with a club for all of his playing career (outside of NYC/ISP/NRL or equivalent representation) will receive a further 1 point loyalty discount for returning to his 'junior' club
11. Discounts are not cumulative.

Note: Competition names change from time to time. The current competition name is listed however, if a player played in a competition of the same level under a different name i.e. Ron Massey Cup / Bundaberg Red Cup they will be assessed at the level.
