G	<p>A player who has not previously played Senior Rugby League (Open Age)</p> <p>Or</p> <p>A player not in Cat A – C transferring from a club with an approved 'feeder' relationship</p>	0

Guidelines

- 1) Players are accessed based on their playing history from the previous seasons, not current season, and are indexed at the highest possible category
- 2) Player indexes are not cumulative but will be calculated based on the player's **maximum PPI**
- 3) Points calculated using the players participating in that match only (Max 17)
 - a) Maximum Points Allowed per Team: **90 points** per team per match
- 4) **Discounts** (Note: These discounts are cumulative to a maximum of 10 points discount BUT may not take a player's PPI below zero):
 - a) 1 point for each season a player has previously played with their current club
 - b) 1 point for each season since a player has been selected in a representative team (Cat A, B, C) OR for each season a player has not played Rugby League since playing for another club
 - c) 5 points for a Category A, B or C player who is selected in a representative team AFTER they have completed at least one season with their current club.
- 5) **Player Portability** – Each NSWRL Women's Premiership club is to align themselves with a minimum of one local League club upon application to the NSWRL to facilitate the portability of players between the Women's Premiership and the NSWRL Open Women's Conference Competition. This will enable the maximum number of players to participate each week.
- 6) **Representative Players:** Current Representative Players (Category A or B from 2018/2019) will not be allowed portability **downwards** from the Harvey Norman NSW Women's Premiership to the NSWRL Open Women's Conference Competition
